

## Oxford Aquatex

www.oxprod.com

**Price** £29.99 **Pack size** 30x22x5cm

**Weight** 409g **Fitting time** 38 seconds

■ Chain eyelets ■ Front tab

STOCKED WIDELY BY motorcycle dealers all across the country, this is a lightweight, low-priced and highly effective cover that's easy to put on and take off. It proved to be completely waterproof and heat resistant in our test, with the only reservation being some moisture forming on the inside of the cover, making it cling to the bike when wet. The Aquatex probably won't last a lifetime, but it's convenient to use, will protect your bike and is well priced – hence it being awarded our Best Buy triangle.

Handy loops help you fit a chain and lock

Material is light, waterproof and durable

## Gear Gremlin Classic Neon

www.thekeycollection.co.uk

**Price** £49.99-£70.99 **Pack size** 30x25x9cm

**Weight** 1030g **Fitting time** 52 seconds

■ Chain eyelets ■ Front tab ■ Vented

LIGHT, EASY TO fit, and easy to scrunch up and put in your bag. The material is strong, especially front and rear where it took 15 rubs against the peg to go through. It was almost completely water resistant too, but the overall build quality could be better: some stitching had come undone in several areas after just a few days' testing. At £70 for larger sizes it's too expensive, but it can be found online for far less.

Fraying stitching is a worry after a few days

Strong material held up to our abrasion test

## Oxford Rainex

www.oxprod.com

**Price** £54.99 **Pack size** 34x27x12cm

**Weight** 2395g **Fitting time** 62 seconds

■ Chain eyelets ■ Front tab  
■ Vents ■ Taped seams

OXFORD'S MID-PRICED OFFERING, with more weight, substance and features than the Aquatex. There's a soft heat-resistant liner, taped seams, and a front window to house a solar battery charger. The fabric proved completely waterproof, but failed the highest heat-resistance test – the iron melting completely through at 200°C. Similar in use and performance to the GT Moto cover, but the Oxford did better in the abrasion test making it our pick of the two.
