

www.alpinestars.com

Fit is comfortable and well-proportioned, but the jacket's crotch cut-out looks a bit weird and fit is on the tight side of snug – especially around the trouser waist. **Make sure**

There's no back protector or hip armour, but elbow, shoulder and knee armour is included and Level 2 rated. The trouser waist features a plastic clip buckle, which

In the cold test, the jacket and trousers are both at a pretty comfortable temperature after 20 minutes at -2°C . Body temperature is 27°C while the minimum sleeve temperature is 13°C .

The Alpinestars ST-7 is hard to fault - it's a comfy, warm, waterproof, well-rounded combo with no obvious flaws.

Weight 4.7kg

Some jacket outer material is light and comfy, some is tougher and less supple. But all conform to AA standard for abrasion resistance. All jackets and trousers come with shoulder, elbow and knee armour, but not all have a back protector or hip armour.
